

Tree Planting, Growing and Monitoring

The Institute of Integrated Electrical Engineers Inc. - Cagayan de Oro Chapter conducted a Community Outreach Program focused on Tree Planting, Growing and Monitoring last November 8, 2014 from 7:00 o'clock up to 11:00 o'clock in the morning at Barangay Lumbia, Cagayan de Oro City.

This is a half day community service offered to selected barangays in order to promote a greener community. By way of planting a tree, we can help in conserving the environment and contributing to the future. The activity has been jointly undertaken by Cagayan de Oro Eagles Club being one of the partners of IIEE. The following are some of the documented pictures during the activity.
